 Erode, Tamil Nadu

PROFESSIONAL SUMMARY

B.E. Computer Science graduate with hands-on training in cybersecurity and IT support. Completed a 30-day cybersecurity internship practicing attack techniques and vulnerability assessment, alongside IT support experience troubleshooting hardware, software, and network issues. Certified in multiple security domains (CISSP, Cisco, ISC2) with strong foundations in Python, SQL, Linux, and web development. Seeking an entry-level role in cybersecurity or IT support to apply technical skills and continue professional growth.

TECHNICAL SKILLS

 **Cybersecurity**
Threat Analysis, Vulnerability Assessment, Penetration Testing Basics, Incident Response, Log Analysis, Network Security Fundamentals, Security Automation

 **IT Support**
Hardware Diagnostics, Software Installation, OS Troubleshooting (Windows/Linux), Network Configuration, Remote Desktop, User Account Management, Ticketing Systems

 **Programming**
Python, SQL, Java, C (Basic), HTML, CSS, JavaScript, PHP

 **Tools & Platforms**
Nmap, Wireshark, Metasploit, Burp Suite, OpenVAS, SQLMap, John the Ripper, Hydra, Splunk (Basic), Linux Administration

 **Soft Skills**
Technical Training & Mentoring, Customer Service, Problem Solving, Critical Thinking, Team Collaboration, Time Management, Effective Communication

EXPERIENCE & INTERNSHIPS

Cyber Security Intern
ShadowFox (Virtual Mode)

- Practiced three real-world cybersecurity attack techniques in a controlled lab environment
- Learned penetration testing methodologies: reconnaissance, exploitation, and post-exploitation
- Gained exposure to vulnerability assessment tools and security reporting

Jun 2025 – Jul 2025

Technical IT Support Intern
Desicrew

- Provided technical assistance to end-users on hardware, software, and network issues

Jan 2026 – Jul 2026

- Diagnosed system problems and implemented solutions with minimal downtime
- Managed user accounts, permissions, and basic security policies
- Maintained support ticket documentation and knowledge base

Technical Trainer (Part-time)

Apr 2025 – Oct 2025

Terv Pro (Offline Mode)

- Delivered technical instruction to students on programming, IT concepts, and security fundamentals
- Developed training materials, lab exercises, and hands-on workshops
- Mentored 50+ learners in Python, web development, and security tools

Java Fullstack Trainee

Sep 2022

Pantech eLearning (Virtual Mode)

- Completed 30-day intensive training in Java, Spring, JDBC, HTML, CSS, and JavaScript
- Built real-world fullstack applications with database integration

PROJECTS

Ciphered Communication & Safeguarding Information

Individual Project

Python | Encryption Algorithms | Cybersecurity

Built a USB data encryption tool using cryptographic algorithms to protect sensitive information. Implemented end-to-end encrypted communication channels for secure data transmission.

Universal System & Log Collector

Individual Project

Python | Cross-Platform | Forensics

Developed an automated log collection tool for Windows and Linux systems, gathering system, Sysmon, and browser logs for incident analysis and IT diagnostics.

IoT Smart Agriculture Irrigation System

Developer & Tester

IoT Sensors | Embedded C | Arduino

Designed an automated irrigation system using ESP32 Node MCU, demonstrating hardware troubleshooting, sensor calibration, and embedded system programming.

EDUCATION

B.E. Computer Science and Engineering

GPA: 7.6 / 10

Erode Sengunthar Engineering College, Erode

Higher Secondary (HSC)

60%

St. Michaels Higher Secondary School, Anthiyur

Secondary (SSLC)

73.3%

St. Michaels Higher Secondary School, Anthiyur

CERTIFICATIONS

- ▶ Certified in Cyber Security — ISC2 (2023)
 - ▶ Introduction to Cyber Security — Cisco Networking Academy (2022)
 - ▶ API Security Fundamentals — APIsec University (2024)
 - ▶ Government Certificate — Electronics & IT Cyber Security
- ▶ Cyber Security — Skill India (2023)
 - ▶ CISSP — Cybrary (2021)
 - ▶ Introduction to Digital Forensics

AREAS OF INTEREST

SOC Operations

DFIR

Penetration Testing

Threat Hunting

Incident Response

IT Support

Technical Training

System Administration
